CRAFTING THE ERA OF LUXURY

Abstract

collection

Each piece showcases the craftsmanship and attention to detail the mid-century style is famed for, with clean lines and geometric shapes. This collection is the perfect choice for those who want to add a touch of luxury, exclusivity and a nod to the past in their spaces.

The metallic décor brings an extra hint of luxury and sophistication to this captivating collection. Copper-toned accents highlight the geometric designs and enhance the beauty of each piece, adding a warm glow and a contemporary look. The contrast between wood and metal creates a visually striking combination.

The History of Art

Attraction for new talent, spokesman for Italian ceramic excellence in the world. Our history reveals an innate vocation for ceramic manufacturing that led to conscious growth over time under the banner of recognisable, sustainable and high-profile design. Creativity, innovation and research are the essential tools for developing projects and products inspired by the respect and well-being of people and the environment, a synthesis of the values we want to share with our community.

Where Dreams Take Decor with multi Base color

Thanks to this richness of range, the result of the careful design of the Style Office, it is possible to combine the very small size with the giant, playing with contrasts, colours and graphics, colour palettes, graphics, regular and irregular shapes, matt and satin effects.
